

14th International Conference of the Pacific Association for Computational Linguistics

The 14th International Conference of the Pacific Association for Computational Linguistics (PACLING 2023) will be held in Suva, Fiji, from December 11-15, 2023. The conference will bring together researchers from around the world to share their latest work on all aspects of computational linguistics, including natural language processing, machine translation, speech recognition, and computational semantics.

Computational Linguistics: 14th International Conference of the Pacific Association for Computational Linguistics, PACLING 2024, Bali, Indonesia, May 19-21, ... Computer and Information Science Book 593) by Jason Storbakken

Item Weight	: 1.8 pounds
Dimensions	: 6.1 x 1.32 x 9.25 inches
Paperback	: 584 pages

PACLING is a major international conference in the field of computational linguistics, and it is the premier conference in the Asia-Pacific region. The

conference is held every two years, and it provides a forum for researchers to present their latest work, exchange ideas, and network with colleagues from around the world.

The theme of PACLING 2023 is "Computational Linguistics for the Pacific." The conference will focus on the unique challenges and opportunities for computational linguistics in the Pacific region, including the development of new technologies for low-resource languages, the use of computational linguistics to support indigenous languages, and the application of computational linguistics to social and environmental issues.

PACLING 2023 will feature a keynote address by Professor Mark Steedman of the University of Edinburgh. Professor Steedman is a world-renowned expert in computational linguistics, and his research has had a major impact on the field. He will be speaking about his latest work on the development of a new theory of grammar.

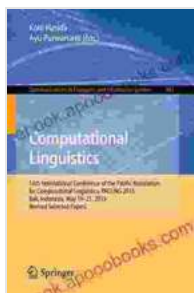

In addition to the keynote address, PACLING 2023 will feature a variety of other events, including:

- Oral presentations of research papers
- Poster presentations of research projects
- Workshops on a variety of topics in computational linguistics
- Tutorials on a variety of topics in computational linguistics
- Social events and networking opportunities

PACLING 2023 is an excellent opportunity for researchers in the field of computational linguistics to come together and share their latest work. The

conference will provide a forum for researchers to exchange ideas, network with colleagues, and learn about the latest developments in the field.

To learn more about PACLING 2023, please visit the conference website: <http://www.pacling.org/2023/>.
