What is Anti-Racist Scholarship?

Anti-racist scholarship is a field of study that examines the history, theory, and practice of racism. It seeks to understand how racism operates in society, how it affects people of color, and how it can be overcome.

Anti-racist scholars use a variety of methods to study racism, including:

* **Historical analysis:** Examining the history of racism to understand its roots and how it has evolved over time. * **Social theory:** Developing theories to explain how racism operates in society and how it affects people of color. * **Critical race theory:** A specific approach to studying racism that focuses on the intersection of race, class, and gender. * **Policy analysis:** Examining policies and practices to identify their impact on people of color and to develop anti-racist alternatives.

Anti-racist scholarship is not simply an academic pursuit. It is a call to action. Anti-racist scholars are committed to using their knowledge to make the world a more just and equitable place.
