From the Vietnam War to the Iraq War, Pilger shows how the Western media has been complicit in promoting the myth of humanitarian intervention, while ignoring the real motives behind these wars, which are often nothing more than greed and power.

Pilger also exposes the role of NGOs in perpetuating the myth of humanitarian war. He shows how these organizations often work hand-in-hand with Western governments and corporations to legitimize the use of violence against civilians.

Humanitarian Wars: Lies and Brainwashing is a powerful indictment of the Western war machine. It is a must-read for anyone who wants to understand the true nature of war and the role of the media in promoting it.
