APA Annotated Bibliography on Bullies in Schools

Bacchini, D., Esposito, G., & Affuso, G. (2009). Social experience and school bullying. *Journal of Community & Applied Social Psychology, 39*(1), 11-32. doi: 10.1002/casp.973

This study examines the relationship between school bullying and various aspects of urban environments where participants live and go to school. Researchers found that bullying is significantly associated with the way subjects perceive their exposure to dangerous and violent situations within the neighborhood they live and go to school, and their relationship with classmates and their relationship with teachers. The researchers conclude that there is a need for intervention strategies that extend beyond the classroom to the broader community and neighborhood.

Harter, R. J. (1996). *Breaking the Cycle of Violence: Interventions for bullying and victimization*. Washington, D.C.: Accelerated Development.

This book gives practical interception and prevention techniques available for dealing with bullying. It begins by giving a clear picture of who the school bullies and victims really are and how their problems began, as well as the potential dangers they face throughout their lives. A step-by-step model for helping the victims improve their relationships is then presented. Finally, hands-on actions are offered for school personnel, parents, bullies, victims, and bystanders that can help to break the cycle at its earliest stages and improve the environment for everyone.

Hurst, M. (2005). When it comes to bullying, there are no boundaries. *Education Week*, 24(22), 8. Retrieved from Academic Search Complete database.

The author notes that bullying is a problem in every school in the world. She goes on to describe intervention programs worldwide that have helped reduce the number of incidents in many countries. Scotland and Australia, for example, have set up government-supported organizations and websites, while the Israel Ministry of Education has developed extensive teacher training. The article does not draw any conclusions about the best solutions to the problem. Intended mainly for teachers and administrators seeking a broad perspective on this issue, the article does not provide any practical advice for parents or for teachers looking for classroom intervention practices.
