The AHPBA Liver Cancer Meeting is a leading international conference on liver cancer. Each year, the meeting brings together experts from around the world to share the latest research and treatment options for liver cancer.

This book contains the meeting notes from the 2024 AHPBA Liver Cancer Meeting. These notes provide a comprehensive overview of the latest research and treatment options for liver cancer.

Prevention

The best way to prevent liver cancer is to avoid the risk factors for the disease. These risk factors include:

* Hepatitis B and hepatitis C infection * Cirrhosis * Non-alcoholic fatty liver disease * Obesity * Diabetes * Smoking * Alcohol abuse

If you have any of these risk factors, it is important to talk to your doctor about ways to reduce your risk of liver cancer.

Diagnosis

Liver cancer is often diagnosed with a combination of tests, including:

* Blood tests * Imaging tests, such as ultrasound, CT scan, and MRI * Biopsy

If you are diagnosed with liver cancer, your doctor will work with you to develop a treatment plan.

Treatment Options

The treatment options for liver cancer depend on the stage of the disease. Treatment options may include:

* Surgery * Chemotherapy * Radiation therapy * Targeted therapy * Immunotherapy

Your doctor will work with you to choose the best treatment option for you.

Living with Liver Cancer

If you have been diagnosed with liver cancer, it is important to know that there are resources available to help you. These resources include:

* Patient support groups * Online support forums * Social workers * Counselors

These resources can help you cope with the emotional and practical challenges of living with liver cancer.

Liver cancer is a serious disease, but it is important to remember that there is hope. With early detection and treatment, many people with liver cancer can live long, healthy lives.

This book provides a comprehensive overview of the latest research and treatment options for liver cancer. It is a valuable resource for anyone who has been diagnosed with liver cancer or who is at risk for the disease.
