

# Meeting Today's Challenges: Routledge Research in Public Administration and Public Policy

By: [Author Name]

Public administration and public policy are facing unprecedented challenges in the 21st century. From the rise of populism and nationalism to the impact of technology on government, from the challenges of climate change to the changing nature of work, the world is facing a rapidly changing landscape. This book brings together leading scholars from around the world to discuss the most pressing issues facing public administration and public policy today.

## A Guidebook for City and County Managers: Meeting Today's Challenges (Routledge Research in Public Administration and Public Policy) by James M. Bourey

The book is divided into five parts, each of which focuses on a different challenge facing public administration and public policy. The first part, "The

Rise of Populism and Nationalism," examines the causes and consequences of the rise of populism and nationalism around the world. The second part, "The Impact of Technology on Government," explores the ways in which technology is changing the way that governments operate and interact with citizens. The third part, "The Challenges of Climate Change," examines the challenges that climate change poses for public administration and public policy, and discusses the ways in which governments can mitigate the effects of climate change.

The fourth part, "The Changing Nature of Work," examines the ways in which the changing nature of work is affecting public administration and public policy. The fifth part, "The Need for Greater Diversity and Inclusion in Public Service," examines the importance of diversity and inclusion in public service, and discusses the ways in which governments can create more diverse and inclusive workplaces.

This book is an essential resource for anyone who is interested in public administration and public policy. It provides a comprehensive overview of the challenges facing the field, and offers valuable insights into the ways in which these challenges can be addressed.
