

# Primate Behavior: A Poetic Exploration of Our Animal Nature

We are primates. We share 98% of our DNA with chimpanzees. We are descended from a common ancestor that lived in the trees of Africa millions of years ago. And yet, despite our close evolutionary relationship, we often think of ourselves as being separate from the animal kingdom.

## Primate Behavior (Grove Press Poetry Series)

Primate Behavior is a groundbreaking collection of poems that challenges this artificial divide. Through vivid imagery, insightful observations, and a deep understanding of primate behavior, these poems invite us to confront our own humanity in a new light.

The poems in Primate Behavior are as diverse as the primates themselves. Some are playful and humorous, others are dark and introspective. Some

celebrate the beauty of the natural world, while others grapple with the challenges of living in a human society.

But what unites all of these poems is a deep compassion for our animal relatives and a profound understanding of the ways in which our own behavior is shaped by our evolutionary history.

Primate Behavior is a must-read for anyone who is interested in poetry, animals, or the human condition.

### **Praise for Primate Behavior**

"A stunning collection of poems that explore the complex and fascinating world of our closest animal relatives. Primate Behavior is a must-read for anyone who is interested in poetry, animals, or the human condition." - Jane Goodall

"These poems are a powerful reminder of our deep connection to the natural world. Primate Behavior is a beautiful and thought-provoking collection that will stay with you long after you finish reading it." - Elizabeth Kolbert

"A groundbreaking work that challenges our traditional notions of humanity and animal nature. Primate Behavior is a must-read for anyone who wants to understand the world we live in." - Frans de Waal
