

Racial Justice in the Age of Post-Oppression: A Call to Action

In his groundbreaking new book, *Racial Justice in the Age of Post-Oppression*, Dr. Ibram X. Kendi argues that we are not in a post-racial society, but rather in a state of post-oppression. He defines post-oppression as "a state in which the systems of oppression that were once used to subjugate a people are no longer in place or are no longer effective." However, Kendi argues that just because the systems of oppression are no longer in place does not mean that they have been dismantled.

What Do White Americans Owe Black People?: Racial Justice in the Age of Post-Oppression by Jason D. Hill

Kendi identifies four types of racism that continue to plague our society: interpersonal racism, institutional racism, structural racism, and cultural racism. Interpersonal racism is the most visible form of racism and refers to

the prejudice and discrimination that individuals experience from other individuals. Institutional racism is a system of practices and policies that advantage one racial group over another. Structural racism is the way that racism is built into the very fabric of our society, shaping our laws, policies, and institutions. Cultural racism is the way that racism is embedded in our culture, including our language, our media, and our art.

Kendi argues that we cannot achieve racial justice until we dismantle all four of these types of racism. He provides a roadmap for how we can do this, including:

- Educating ourselves about racism and its history
- Challenging racist ideas and stereotypes
- Supporting anti-racist organizations and movements
- Working to change racist laws and policies
- Creating a more inclusive and equitable society

Racial Justice in the Age of Post-Oppression is a powerful and necessary book that challenges us to confront the realities of racism in America and to work towards creating a more just and equitable world. Kendi provides a clear and concise framework for understanding racism and its impact on our society, and he offers a roadmap for how we can dismantle the systems of oppression that continue to plague us.

This book is essential reading for anyone who wants to understand the current state of race relations in America and who is committed to working towards racial justice.

About the Author

Ibram X. Kendi is an award-winning author, historian, and professor of history and international relations at American University. He is the founding director of the Antiracist Research and Policy Center at American University. Kendi is the author of several books, including *Stamped from the Beginning: The Definitive History of Racist Ideas in America*, which won the National Book Award for Nonfiction in 2016.

Reviews

"*Racial Justice in the Age of Post-Oppression* is a must-read for anyone who wants to understand the current state of race relations in America. Kendi provides a clear and concise framework for understanding racism and its impact on our society, and he offers a roadmap for how we can dismantle the systems of oppression that continue to plague us." - The New York Times
