The Handbook is divided into four sections:

1. **Foundations of Reading:** This section provides a foundation for understanding the science of reading, including chapters on the history of reading research, the nature of reading, and the development of reading skills.
2. **Reading Comprehension:** This section focuses on the cognitive processes involved in reading comprehension, including chapters on text comprehension, discourse comprehension, and metacognition.

3. **Reading Fluency:** This section focuses on the skills involved in reading fluently, including chapters on word recognition, decoding, and automaticity.
4. **Reading Assessment:** This section focuses on the assessment of reading skills, including chapters on standardized testing, informal assessment, and diagnostic assessment.

The Handbook of Reading Research is an essential resource for anyone who wants to understand the science of reading. It is a valuable resource for researchers, educators, policymakers, and parents.

Praise for The Handbook of Reading Research

“The Handbook of Reading Research is a monumental work that will be the definitive reference on the science of reading for years to come.”- Diane Ravitch, Research Professor of Education, New York University”

“The Handbook of Reading Research is a comprehensive and authoritative guide to the science of reading. It is an essential resource for anyone who wants to understand the complex and fascinating process of reading.”- David Pearson, Professor of Education, University of California, Berkeley”

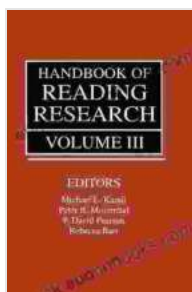

“The Handbook of Reading Research is a must-read for anyone who is interested in the science of reading. It provides a comprehensive overview of the field and is an invaluable resource for researchers, educators, and policymakers.”- Maryanne Wolf, Professor of Child Development, Tufts University”
